

Health for each woman,  
access for all women.

## WHO WE ARE

### CONSIDER THE POSSIBILITIES...

Medicines360 is a new kind of pharmaceutical company. We exist to increase access to healthcare for all women. Imagine a world where a pharmaceutical company cares equally for those who cannot afford their products as for those who can. A company structured entirely around empowering women to improve their lives and those of their families. Combining our rigorous research and dedication with your collective voices and passionate perspectives, together we can revolutionize women's healthcare.

### OUR APPROACH: SMART SCIENCE, NOVEL ACCESS STRATEGY, GLOBAL SOLUTIONS

At Medicines360, we're convinced that healthcare for women is outdated, ineffective, and imbalanced. That's why we're committed to doing things differently. We're merging the elements of successful not-for-profits and pharmaceutical companies – revolutionary research, compassionate revenue distribution, and community involvement – and leveraging them to heal what's broken in our healthcare system. Together, we'll connect women through a shared global experience.

As a women's healthcare innovation company, we care about both people and profits. While we create products for people who can afford them, our core mission is to provide the same great products to the underserved. We want every woman to have a voice in the care she receives, as well as equal access to the best treatment options.

Because high-quality women's healthcare cannot be a luxury. It must be a given.

### OUR FIRST MAJOR STEP, AND WE NEED YOUR HELP

Our immediate priority is to provide an affordable levonorgestrel-releasing IUD (currently under development) for every woman who desires that option. This focused effort represents a major step in helping women take control of their lives. Join us, spread the word, and help contribute as we revolutionize the face of women's healthcare, here at home and around the world. Visit us today at [medicines360.org](http://medicines360.org).

Medicines360. Health for each woman. Access for all women.

## MEDICINES360 AT-A-GLANCE

Medicines360 is a women-led and women-enlightened social enterprise developing effective, affordable and sustainable medical solutions for all women. Established in 2009, we are a 501c3 U.S. nonprofit organization working toward sustainability through commercial sales revenue to realize our vision.
